URETHANE HARDENER

BX013

PRODUCT DATA SHEET

DESCRIPTION: A two-component urethane hardener and gloss enhancer for the Equipment Enamels that offers enhanced chemical resistance, dry speed, and long-term appearance.

HOW TO USE: Thoroughly mix 16 ounces **URETHANE HARDENER** with 1 gallon of the Equipment Enamel until it is fully incorporated into solution. Reduce as required with appropriate thinner. Mixture must be used within 48 hours. Follow normal painting procedures. Do not use in fast drying enamels.
